

Update from the Kentucky ABC

December 2013

Licensing update

Effective Nov. 1, 2013, the Department of Alcoholic Beverage Control enacted two new policies that affect the application process. The first of the changes dictates that incomplete applications for a state alcohol license be rejected (see KRS 243.430). This includes applications missing pertinent information as well as applications that are submitted with incorrect fees.

Also pursuant to 804 KAR4:250(2), all Special Temporary License Applications must be received at the department at least five working days prior to the event. Temporary applications not received in this time frame will be rejected.

It is imperative that licensees submit all applications timely to allow processing. Please assure all applications are complete and accurate to avoid processing and issuance delays. Enacting such changes will help us serve the Commonwealth more efficiently.

New Program Coordinator in Education Branch

The Department of Alcoholic Beverage Control announces the addition of Dean Davis to the Education Branch. Dean will be involved in the facilitation and execution of the S.T.A.R. training program offered throughout the state. Dean has extensive experience in curriculum design and training, having taught in Kentucky's public school system for over 10 years, in addition to his corporate training experience. He and his wife, Laura, reside in Lexington. Welcome Dean!

Have a safe and joyous holiday season

This time of year offers a great opportunity to celebrate the season with cherished family and friends but it also ushers in increased sales and service of alcoholic beverages. Please remain diligent, adhering to all regulations pertaining to responsible sales and service this season so we can keep the holiday season truly joyous for all. The Department of Alcoholic Beverage Control would like to extend a wish for a safe and joyous holiday season for all of you and your families.
